The focus of this course is on business productivity software applications, including word processing, spreadsheets, databases, presentation graphics, data analytics, and business-oriented utilization of the internet.

Prerequisite: None

Credit: 3 **Lecture:** 2 **Lab:** 4

Textbook: Exploring Microsoft Office 2019 Introductory, 1/e packaged with MyLab IT with Pearson eText – plus Access Card for Exploring 2019 with Technology in Action eText, 16th Edition, Pearson. Publisher's ISBN: 978-0-13-549005-1 (See Inclusive Access below)

Inclusive Access:

- **Textbook:** The textbook and resources for this course are available in digital form through the Inclusive Access textbook program at South Plains College.

That means the e-book edition of the textbook and/or all required resources are provided in the Blackboard portion of the course from the first day of class. The fee for the e-book/resources is included in the student tuition/fee payment, so there is no textbook or access card to purchase for this course.

- **E-book features:** Access to a cloud-based e-reader is provided by RedShelf via Blackboard. RedShelf e-book features include the ability to hear the text read aloud, highlight, take notes, create flash cards, see word definitions, build study guides, print select pages, and download up to 20% of the book for offline access. Visit <https://solve.redshelf.com/hc/en-us/requests/new> for e-book issues and support.
- **Upgrading to a physical textbook:** Students who prefer a printed textbook rather than an e-book may purchase or rent a textbook the textbook publisher or other independent retailer.
- **How to opt out of Inclusive Access:** As long as they meet the opt-out deadline, students may choose not to participate in the Inclusive Access program if they have a textbook from another source. They should check the course syllabus to see if the instructor also requires course work to be done in an online platform, like MyLab IT. If so, the student would be required to have access or purchase access to that platform in addition to acquiring the e-book. To opt out of the Inclusive Access e-book/resources, students will need to locate the RedShelf tool in their Blackboard course and follow the instructions given there. Students who need assistance to opt out should contact their instructor or the SPC Bookstore. The Inclusive Access fee will be refunded to students who opt out after the twelfth-class day.

Instructional and Outside Course Time Estimation:

- Book Reading and Study Time: 2 hours x 20 chapters = 40 hours
- Simulation Assignment Time: 1 per chapter x 20 chapters x 1 hour = 20 hours
- Grader Project Assignment Time: 36 total assignments x 1 hour each = 36 hours
- Exam Time: 5 exams x 1 hour = 5 hours

Total Course Time = 101 hours

Total Time per Week = 6.3 hours per week

Pretest Assignments: Pretest assignments will be given for each section and they are mandatory. They are a free 100% in the gradebook if completed before any other assignments in that section. If they are not completed before other assignments, or not completed at all, they will be recorded as a 0% in the gradebook.

Reading Assignments: Mandatory, assigned reading is a requirement for this course. Without reading the book and going through the voluntary tutorials, you may fall behind and become lost as we move through the semester. Going through the book, following the tutorials and doing the simulations will greatly help you pass the grader projects and exams.

Assignments: Assignments will be available through MyLab IT. The course calendar outlining due dates and availability times is available in Blackboard. There may also be homework assignments and projects assigned periodically throughout the semester. No late work is accepted! You are expected to complete all homework assignments within the due dates indicated. Missing homework assignments may result in an administrative drop.

It is important for you to start your homework early in the week. Do not wait until the night it is due to report problems. If you report problems the night of an assignment, the instructor is not obligated to re-open those for you. Start your homework early in the week and complete it with time to spare!

Grader project assignments and four of the exams require Office 2019 or Office 365 installation on the computer. You cannot use the online Office applications to complete these assignments. These assignments can be completed on Windows 8 or 10 machines or on a Mac with Office 2019/365 installed. They cannot be completed on a Chromebook. Mac users may run into several compatibility issues or problems with the instructions. Also, Mac users will not be able to install Access 2019. I suggest all Mac users utilize the free VMWare Horizon Client to complete grader project assignments. Instructions for installation and use of this tool can be found in Blackboard. The Technology Center, Lubbock Center, Plainview Center, and Reese Campus all have open computer labs available for student use.

Exams: There will be five exams given at the end of each section. Exams will be given using the MyLab IT courseware. The exam will be open for several days and no make-up exams will be given.

Team Project: During the semester there will be a team project assigned. Your team will be expected to research a topic, find good sources of information, work collaboratively, and produce a PowerPoint presentation with audio, along with other documentation. You will be required to collaborate using an online platform. You are required to participate during the team project. If you do not participate with your team, either through refusal, neglect, or ignorance, you may receive a 0% for the Team Project grade. There are no make-up opportunities for the team project. More information on this assignment will be given later in the semester.

Gradebook: Grades will be available in Blackboard. MyLab IT syncs grades with Blackboard periodically throughout the day. Please be aware that it may be several hours before your completed assignments show up in the Blackboard gradebook.

Counseling: If at any point in the semester you find yourself having trouble with stress or feel depressed please stop in and see a counselor. Counseling services are available at all campuses.
